12:00 PM  Introduction and Welcome

12:05 PM  Psoriasis age of onset: Effect on treatment outcomes in the PSOLAR registry
Sanminder Singh, University of California, Davis

12:17 PM  The balance between the malignant clone and reactive T-cells in skin reliably predicts
progression in CTCL
Adèle de Masson, MD, Brigham and Women’s Hospital

12:29 PM  Changes of lesional and non-lesional skin microbiome in the treatment course of
atopic dermatitis
Jung-Im Na, PhD, Seoul National University Bundang Hospital

12:41 PM  Skin surface temperature detection with thermal imaging camera aids in cellulitis diagnosis
Adam Raff, MD, PhD, Massachusetts General Hospital

12:52 PM  Molecular basis of hair follicle donor dominance in androgenetic alopecia and sexual
dimorphism of the skin
Yanne Doucet, PhD, Columbia University

1:04 PM  Systematic review of treatments for keratinocyte carcinoma
Aaron Drucker, MD, The Warren Alpert Medical School of Brown University

1:16 PM  Bone marrow/cord blood transplantation (BMCBT) ameliorates symptoms in some, but not all,
subtypes of severe generalized junctional epiderm
Jakub Tolar, MD, PhD, University of Minnesota/Pediatric BMT

1:28 PM  The cost of acne/rosacea prescriptions in Medicare patients varies by prescriber specialt
Myron Zhang, The Ohio State University College of Medicine

1:40 PM  Discussion and Concluding Remarks
Members of the Medical Dermatology Society (MDS) represent the heart and soul of our specialty: Medical Dermatology. The MDS is made up of the thought leaders of clinical dermatology and the teachers of the next generation of practicing dermatologists. Our members include academicians, private practitioners, and resident physicians. We specialize in the care of patients with serious dermatologic diseases. Our mission is to improve the care of patients with these conditions.

Dermatologists are encouraged to pursue a career in medical dermatology by:

- Encouraging resident presentations at our Annual Meeting
- Developing Advanced Medical Dermatology Rotations for residents to work with experts in our field across the country
- Encouraging dermatology programs to sponsor 5-year combined Internal Medicine/Dermatology training programs
- Coordinating and providing lectures and sessions on medical dermatology topics at major dermatology meetings
- Providing lectures, discussions and case presentations at the annual Medical Dermatology Society Meeting
